Seminar on Financial System
(JFY 2007)

Position Paper

All applicants are required to write a Position Paper and submit it together with the Nomination Form. The Paper should be **typewritten in English, 3-5 pages in length**. During the seminar, you will be requested to specify the issues and make a Policy Recommendations during the Core Phase in Japan.

Position Paper should include the followings:

1. Describe your current responsibilities.
2. Describe the concerns and challenges of financial sector development in your country,
3. Explain present policy measures of the government toward the issues mentioned above,
4. Describe what you expect to learn from this seminar in order to solve the issues identified

Note: The position paper will be used to screen the candidates, and also be used as the source of information for the lecturers in the course. The participants are requested to make presentations on their position papers to share the case of each country.
